

KOMODO ANALYTICS: Powered by Splunk

Operational Intelligence

Data is generated by many methods from machine logs and output from devices, to user based data generated on a minute by minute basis. Tap into this data with Komodo Analytics Powered by Splunk.

Organizations today have many obstacles in their way, don't let your machine data be one of them. Harness the power of Komodo Analytics powered by Splunk Enterprise and make use of your machine data to accelerate your operational intelligence.

If you have a specific problem you are troubleshooting, a security requirement or a need to keep tabs on a mission critical application, point your log data to Komodo Analytics to help you gather the insight to this data.

Komodo Analytics can take your data, ingest it into Splunk Enterprise, Index it, Search it, and Present it.

ABOUT SPLUNK

Splunk Inc. provides the leading software platform for real-time Operational Intelligence. Splunk® software and cloud services enable organizations to search, monitor, analyze and visualize machine-generated big data coming from websites, applications, servers, networks, sensors and mobile devices. More than 9,000 enterprises, government agencies, universities and service providers in more than 100 countries use Splunk software to deepen business and customer understanding, mitigate cybersecurity risk, prevent fraud, improve service performance and reduce cost. Splunk products include Splunk® Enterprise, Splunk Cloud™, Hunk®, Splunk Light™, Splunk MINT and premium Splunk Apps. To learn more, please visit <http://www.splunk.com/company>.
